EXPERIENCE

Alórica — Bilingual Customer Service Agent

Mar 2026 - May 2026

Managed and resolved operational incidents in English for international clients by operating transactional web platforms and automated payment systems. Executed and verified real-time digital transactions, ensuring strict compliance with cybersecurity standards, data privacy, and the secure handling of confidential financial information

Autotransportes Pilot — IT Analyst

Aug 2024 - Dec 2025

Managed Office accounts, and license management through the Microsoft 365 Admin Center. Provided technical support and user assistance to ensure seamless daily operations. Conducted comprehensive training sessions on the ticketing platform. One of my key accomplishments was successfully migrating corporate email accounts from a Neubox server to a Microsoft environment, ensuring a smooth transition with zero data loss. This process involved meticulous planning, data integrity verification, and user coordination to minimize downtime and disruption.

Amocali A.C. — Web Developer & UX Designer

Jan 2023 - Dec 2023

Collaborated on the development and implementation of a web platform for efficient management of empty agrochemical containers. The solution addressed the low or non-existent recovery of these containers by providing forms, geolocation tools, and alerts to improve collection on a national level, solving issues related to real-time information and statistics for better decision-making.

Florimiel — Software Developer

Aug 2022 - Dec 2022

Developed a desktop Point of Sale (POS) system using Visual Basic with SQL Server integration for a store specializing in selling honey products. The system streamlines sales management, inventory control, and customer information.
